Exam #2 - This Thursday 7/9

Hi everyone!!

Here are the topics for Exam #2. The exam will start promptly at 3:15 pm this Thursday.

- States of matter
- Physical and chemical changes
- Dalton's atomic theory
- Atom models over the years
- Subatomic particles (protons, neutrons, electrons)
- Isotopes
 - Calculating average atomic mass
 - Calculating the atomic mass of one isotope
 - Determining numbers of protons, neutrons, and electrons using isotopic notation
- Ions
 - Formation
 - Number of electrons in ions
- Nomenclature
 - Ionic Compounds
 - Covalent Compounds
 - Acids
 - Polyatomic Ions

ChemQuiz.net Quizzes to help you study:

[Types of Matter Quiz \(https://chemquiz.net/mat/\)](https://chemquiz.net/mat/)

[Elements & Isotopes Quiz \(https://chemquiz.net/iso/\)](https://chemquiz.net/iso/)

[Average Atomic Masses Quiz \(https://chemquiz.net/aam/\)](https://chemquiz.net/aam/)

[Naming Compounds & Calculating Molar Masses Quiz \(https://chemquiz.net/nam/\)](https://chemquiz.net/nam/)

This topic is closed for comments.
